(54) DOME-SHAPED ABSORBING ARTICLE AND PRODUCTION METHOD THEREOF

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a dome-shaped absorbing article which eliminates the spillage of urine with a better touch of wearing and achieves excellent carrying performance with easier loading and unloading and a lighter weight.

SOLUTION: In an absorbing article comprising an outer sheet on the side of clothing, a surface sheet on the body side and an absorbent between both the sheets, an elastic member surrounding the absorbent is attached in a ring so that a dome is formed in shape with the body side thereof inside. This produces a dome-shaped absorbing article which can prevent the spillage of urine and is easier to load or unload with a lighter weight and a better touch of wearing.
